LYNCHBURG, Va.--(BUSINESS WIRE)--May 4, 2026-- BWX Technologies, Inc. (NYSE: BWXT) ("BWXT", "we", "us" or the "Company") reported first quarter 2026 results. A reconciliation of non-GAAP results is detailed in Exhibit 1.

"We started 2026 with strong results," said Rex D. Geveden president and chief executive officer. "Our first quarter results were driven by pacing of work, higher throughput and improved operating performance as we executed on our robust backlog and pursued new opportunities across our global security, commercial power, and nuclear medicine markets."

"Investment in global nuclear markets is accelerating and demand for BWXT's innovative nuclear solutions is growing rapidly," continued Geveden. "As highlighted by the recent announcement of the PCG acquisition, BWXT's first step in establishing U.S.-based commercial nuclear manufacturing capacity, we are committed to strategically deploying capital, both organically and inorganically, to bolster our industrial scale to meet the needs of these exciting markets and drive value creation for our shareholders."

"Given our strong first quarter results, robust backlog, and optimistic market outlook, we are raising our 2026 financial guidance," said Geveden. "We now anticipate 2026 adjusted EBITDA of \$650 million-\$665 million, non-GAAP EPS of \$4.60-\$4.75, and \$315 million-\$330 million of free cash flow."

(1) A reconciliation of non-GAAP results are detailed in Exhibit 1. Additional information can be found in the materials on the BWXT investor relations website at [www.bwxt.com/investors](http://www.bwxt.com/investors).

(2) Items named in the Financial Results Summary differ from names in BWXT Financial Statement. Operating Cash Flow = Net Cash Provided by Operating Activities; Capital Expenditures = Purchases of Property, Plant and Equipment; Dividends Paid = Dividends Paid to Common Shareholders

### Revenues

First quarter revenue increased in both operating segments. The Government Operations increase was driven by higher special materials processing revenue and naval reactors growth, partially offset by lower microreactor volumes. The Commercial Operations increase was driven by higher revenue associated with commercial nuclear components, field services, fuel and fuel handling as well as growth in medical sales and contribution from Kinectrics.

### Operating Income and Adjusted EBITDA<sup>(1)</sup>

First quarter GAAP operating income increased primarily due to an increase in both Government and Commercial Operations, partially offset by higher corporate expense as well as higher restructuring and transformation and acquisition related costs.

First quarter non-GAAP<sup>(1)</sup> operating income increased driven by growth in Commercial Operations, partially offset by a modest decline in Government Operations and higher corporate expense. The Commercial Operations increase was driven by higher revenue, good operational performance, and more favorable mix. The slight decrease in Government Operations was due to revenue mix associated with newer special materials projects, partially offset by higher technical services equity income.

First quarter adjusted EBITDA<sup>(1)</sup> increased due to higher non-GAAP<sup>(1)</sup> operating income as discussed above.

### EPS

First quarter GAAP and non-GAAP<sup>(1)</sup> EPS increased as higher operating income, lower interest expense, and a lower effective tax rate were partially offset by lower other income.

### Cash Flows

First quarter operating cash flow growth was primarily driven by higher net income and improved working capital management. Capital expenditures increased mainly due to timing of various growth projects throughout in both Government Operations and Commercial Operations.

### Dividend

BWXT paid \$25.8 million, or \$0.27 per common share, to shareholders in the first quarter of 2026. On April 29, 2026, the BWXT Board of Directors declared a quarterly cash dividend of \$0.27 per common share payable on June 5, 2026, to shareholders of record on May 19, 2026.

### 2026 Guidance

BWXT raised its 2026 guidance for revenue, adjusted EBITDA, non-GAAP EPS<sup>(1)</sup>, and free cash flow<sup>(1)</sup>. 2026 guidance does not include contribution from the announced acquisition of Precision Components Group, LLC.

Additional information can be found in the first quarter 2026 earnings call presentation on the BWXT investor relations website at [www.bwxt.com/investors](http://www.bwxt.com/investors). The Company does not provide GAAP guidance because it is unable to reliably forecast most of the items that are excluded from GAAP to calculate non-GAAP results. These items could cause GAAP results to differ materially from non-GAAP results.

### **Non-GAAP Measures**

BWXT uses and makes reference to adjusted EBITDA, non-GAAP EPS, free cash flow and free cash flow conversion, which are not recognized measures under GAAP. BWXT is providing these non-GAAP measures to supplement the results provided in accordance with GAAP and it should not be considered superior to, or as a substitute for, the comparable GAAP measures. BWXT believes the non-GAAP measures provide meaningful insight and transparency into the Company's operational performance and provides these measures to investors to help facilitate comparisons of operating results with prior periods and to assist them in understanding BWXT's ongoing operations. Definitions for the non-GAAP measures are provided below and reconciliations are detailed in Exhibit 1, except that reconciliations of forward-looking GAAP measures are not provided because the company is unable to reliably forecast most of the items that are excluded from GAAP to calculate non-GAAP results. Other companies may define these measures differently or may utilize different non-GAAP measures, thus impacting comparability.

Non-GAAP Earnings Per Share (EPS) is calculated using GAAP EPS less the non-operational tax effected per share impact of pension & OPEB mark-to-market gains or losses and other one-time items, such as restructuring, transformation, acquisition-related costs, and acquisition-related amortization.

Adjusted Earnings Before Interest, Taxes, Depreciation and Amortization (EBITDA) is calculated using non-GAAP net income, plus provision for income taxes, less other – net, less interest income, plus interest expense, plus depreciation and amortization.

Adjusted pre-tax income is non-GAAP income before provision for income taxes.

Free Cash Flow (FCF) is calculated using net income to derive net cash provided by (used in) operating activities less purchases of property, plant and equipment.

Free Cash Flow conversion is free cash flow divided by net income.

### **Non-GAAP Adjustments**

Our GAAP financial results detailed in Exhibit 1 have been adjusted for the following items:

**Restructuring and Transformation Costs:** Restructuring and transformation costs include restructuring charges as well as costs associated with our efforts to optimize underlying business processes through investments in information technology, process improvements and the implementation of strategic actions and initiatives which we deem to be incremental and non-recurring in nature.

**Acquisition-related Costs:** Acquisition-related costs relate to third-party professional service costs and one-time incremental costs associated with due diligence activities and efforts to integrate the acquired business with our legacy operations.

### **Forward-Looking Statements**

BWXT cautions that this release contains forward-looking statements, including, without limitation, statements relating to backlog, to the extent they may be viewed as an indicator of future revenues; our plans and expectations for each of our reportable segments, including growth opportunities and the expectations, timing and revenue of our strategic initiatives, such as medical radioisotopes, SMR components and recent acquisitions; disruptions to our supply chain and/or operations, changes in government regulations and other factors; and our expectations and guidance for 2026 and beyond. These forward-looking

statements are based on management's current expectations and involve a number of risks and uncertainties, including, among other things, our ability to execute contracts in backlog; federal budget uncertainty, the risk of future budget cuts, the impact of continuing resolution funding mechanisms and the debt ceiling, the potential for government shutdowns and changing funding and acquisition priorities; the demand for and competitiveness of nuclear products and services; capital priorities of power generating utilities and other customers; the timing of technology development, regulatory approvals and automation of production; the receipt and/or timing of government approvals; the potential recurrence of subsequent waves or strains of COVID-19 or similar diseases; labor market challenges, including employee retention and recruitment; adverse changes in the industries in which we operate; and delays, changes or termination of contracts in backlog. If one or more of these risks or other risks materialize, actual results may vary materially from those expressed. For a more complete discussion of these and other risk factors, see BWXT's filings with the Securities and Exchange Commission, including our annual report on Form 10-K for the year ended December 31, 2025 and subsequent Form 10-Q filings. BWXT cautions not to place undue reliance on these forward-looking statements, which speak only as of the date of this release, and undertakes no obligation to update or revise any forward-looking statement, except to the extent required by applicable law.
